

The only things you might want to have handy before the car turns up are:

- Your phone (to test in the car and take lots of pictures/videos)
- A friend to take photos/videos - you'll be too busy!
- A USB stick with some music (to test and make sure it fits OK)

1. Basic

Item	Check
Is it your car?	
Make sure VIN matches paperwork	
Correct battery size	
Correct paint color?	
Correct Leather/interior color?	
Correct Trim?	
Correct Wheels? 17inch	
Correct Roof?	
Two key fobs	
Temporary tags	
Tire Inflation Kit (MD and RI only, optional extra everywhere else)	
Parcel shelf	
Emergency kit and triangle	
Front and rear floor mats	
license plate frame	
White plate for towing	
Front license plate mount	
Printed manuals (in glove box)	
Universal Mobile Connector (UMC) Option, cable with standard adapters and carry bag	
Cover for footwell in trunk	
Badge on the rear of the car (some are/are not being delivered with badges)	
Door drain seals removed	
Latest software version (radio)	

2. Optional Items

Item	Check
Parking sensor 360	
Fog Lights	
Second set of wheels (usually for winter tires)	
Towing hook	

2. Outside

Item	Check
1. Dirt under clear coat	
2. Scratches in paint	
3. Frayed headliner	
4. Underside damage from loading/unloading	
5. Wheel scrapes	
6. Tire scrapes (my sidewall was damaged)	
7. Black, sticky 'goop' on the windows or on the sunroof.	
8. Misaligned hood or trunk lid. Service can usually adjust this without issues.	
9. Poor radio reception (antenna was grounded to painted metal)	
10. Dirt/smudges on headliner/seats/trim from delivery driver	

Now make sure all the bits and pieces work properly

	Check
UMC latches and unlatches without problems	
Charge Port Cover opens consistently	
Check mobile charger, make sure it works (bad chargers / cables have been reported)	
Smart Phone syncing	
Contacts	
bluetooth music streaming	
app connect	
Windshield jets pointing too low	
Windshield distortion or cracks (especially near passenger side half way up)	
Tire Pressures too high (this is a common one) - should be 2.2 bar front rear	
All doors close properly (door misalignment reported)	
All handles work properly (various handle problems reported)	
Rear seat belts dragging	
Condensation in the rear lights/reflectors	
A few users have reported problems with the map lights.	
A small number of issues have been reported with the glove box sticking.
