

**MAP
UPDATE**

FOR

**ZS EV COMFORT EDITION
MG5 ALL EDITIONS
MG4 STANDARD &
COMFORT EDITIONS***

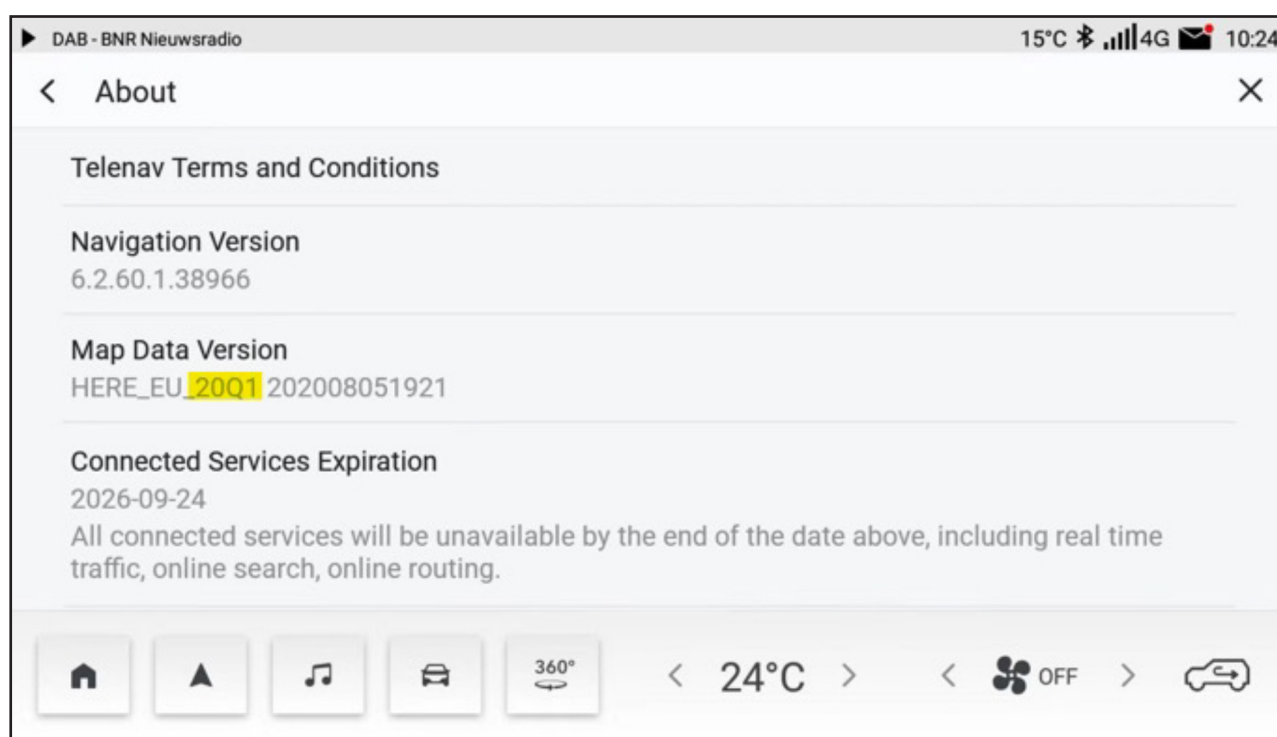

1. CHECK THE CURRENT VERSION

Check the current map data version of your car.

Switch on the central screen > Open the Map/Navigation application > Tap the **System** icon > Tap **More settings** > Tap **About**

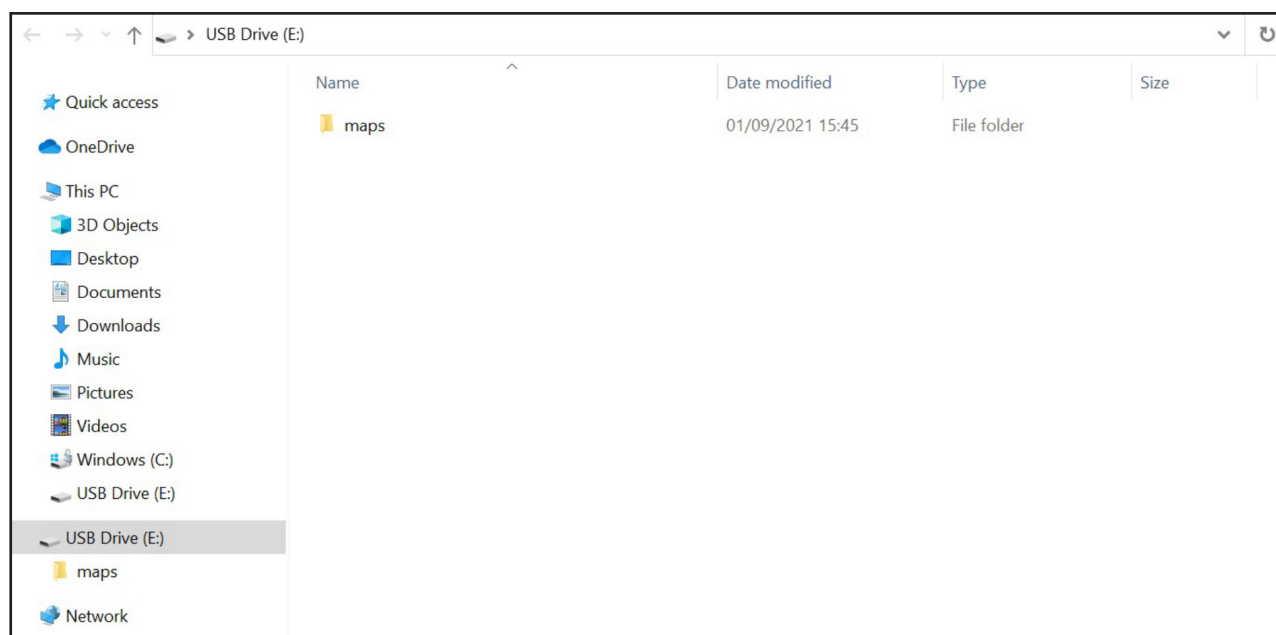

Notes: The Map Data Version is shown as 'HERE_EU_ **VERSION** XXXXXXXXXXXXX'. The version in the example above is '20Q1', which means this is the 2020-Q1 version. If the Map Data Version in your car differs from the one displayed on MG Motor's website, then it requires an update.

2. UPDATE

2.1 Prepare a USB drive

1. Make sure the USB drive has 15-20GB of space
2. [Click here to download](#) the latest map data version
3. Extract the map data from ZIP file > Put the **Maps** folder in the root directory of the USB drive.

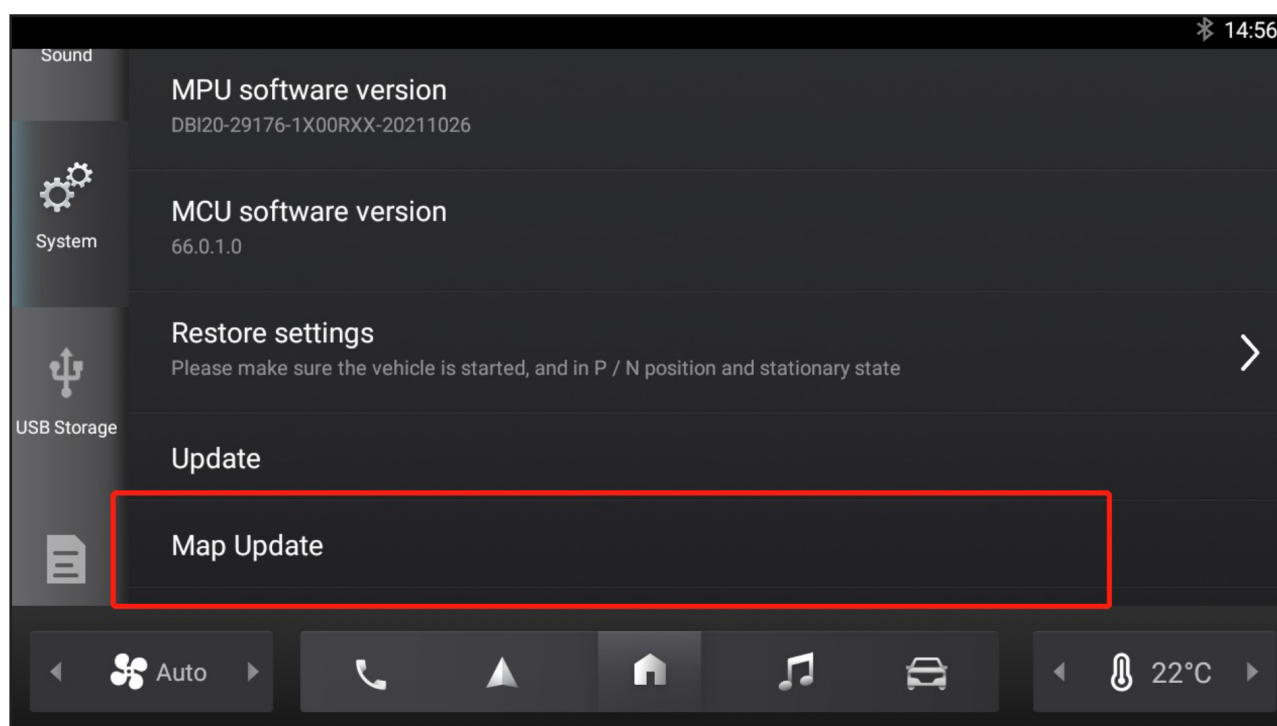

2. UPDATE

2.2 Install the update

1. Start the vehicle and put it in **P** gear.
2. Insert the USB drive to the USB port under the central screen.
3. Go to **Settings > System > Tap Map Update**.

4. Follow the instruction to start the update**

* MG provides 5 years of free map data update. The 5-year period start date is the same as the vehicle's warranty start date.

** If the update process failed, please contact your local dealer.
